17.5mm / 21.5mm
Fully Recessed
Available

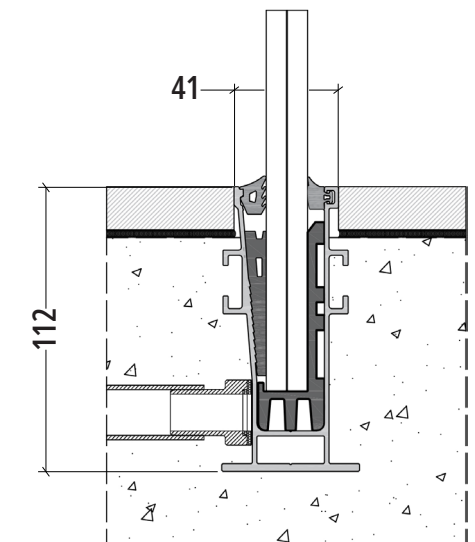

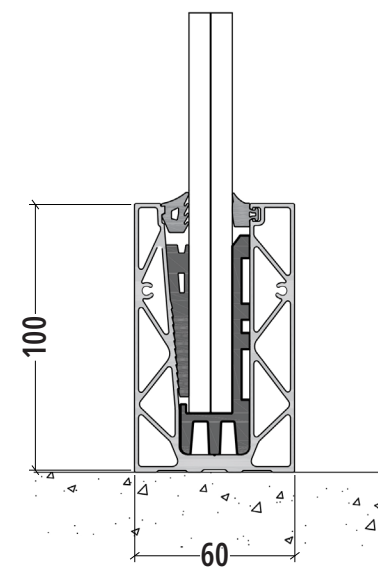

Rabel 1550 is a slim line glass railing system designed to offer you stunning, unobstructed views with its ultra-slim aluminum profiles. Whether you're using 16mm or 20mm laminated/tempered glass, this system delivers modern and durable performance.

The system accommodates two types of installation. A fully recessed and a floor mounted installation both equipped with a smart water drainage system to keep things looking clean and sleek—no matter the conditions.

This versatile solution is ideal for large-scale developments, luxury residences, and commercial spaces where design and functionality come first. It complements both high-end and mass-production projects, bringing a sophisticated finish to any environment.
